EXAMINER'S AMENDMENT & STATEMENT OF REASONS FOR ALLOWANCE

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the title:

Delete the title and insert therefor "Lift for Drum-type Washing Machine".

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record, DE 537758 to MOOK, fails to teach or reasonably suggest the claimed invention. While MOOK discloses a washing machine with lifts having trapezoidal cross sections and pairs of inclined sides with plural protuberances, MOOK fails to teach or reasonably suggest the protuberances varying in width and height with respect to a proximity of the center of the drum such that the width gradually decreases toward the center and the height gradually increases toward the center as claimed in the independent claims. For at least the foregoing reasons, the claims are believed to recite patentable subject matter.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
